Yuba Elite Volleyball Club

THE NEW SITE, PAGE BY PAGE

What I built for Yuba Elite, why each piece is there, and what it's worth to the club.

Prepared by Krystal Rankin · Krystal Brook Coterie · October 2026

BEFORE YOU START

ABOUT THOSE FORMS

At commitment night you mentioned the forms: you can see them on your end, but couldn't figure out why they won't show up for parents. That's something I can fix. I design and build websites through my studio, Krystal Brook Coterie, and every site I build is fully custom, so there's more control and more freedom than a template allows.

I'd been wanting to pitch this to you regardless. Looking at the site the way a new parent would, I thought Yuba Elite had outgrown it, and hearing about the forms tells me that first assessment was right on point. This deck walks through each page: what a parent sees, why it's built that way, and where it brings money in or saves you time.

— Krystal

HOW FAMILIES DECIDE

PARENTS DECIDE FAST, ON A PHONE, WITH REAL MONEY AT STAKE

53%

of mobile visits are abandoned when a page takes longer than 3 seconds to load.

Google, The Need for Mobile Speed, 2016

+8.4%

more retail conversions from a mobile site just 0.1 seconds faster.

Deloitte and 55 for Google, Milliseconds Make Millions, 2020

70%

more likely to visit a business with a complete Google Business Profile.

Google Business Profile Help

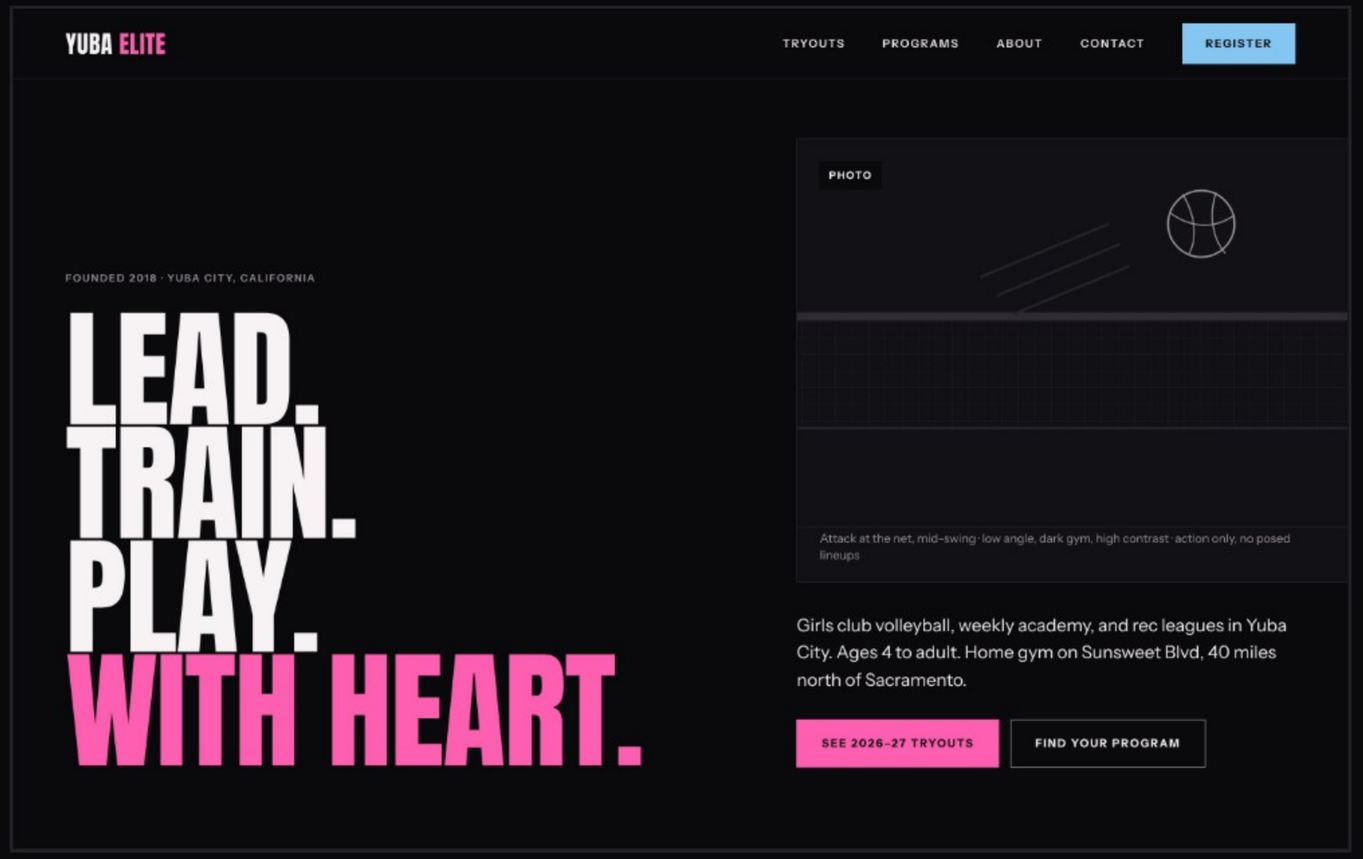

$1,016

average a U.S. family spent on a child's primary sport in 2024, up 46% since 2019.

Aspen Institute Project Play, 2025

National studies, mostly from outside youth sports. They show which way the numbers move, not a promise for Yuba Elite. Full sources on the last slide.

A FIRST SCREEN THAT SAYS WHO YOU ARE

WHAT PARENTS SEE

Lead. Train. Play. With heart. in big type, an action photo, one line on programs, ages and location, and two clear buttons.

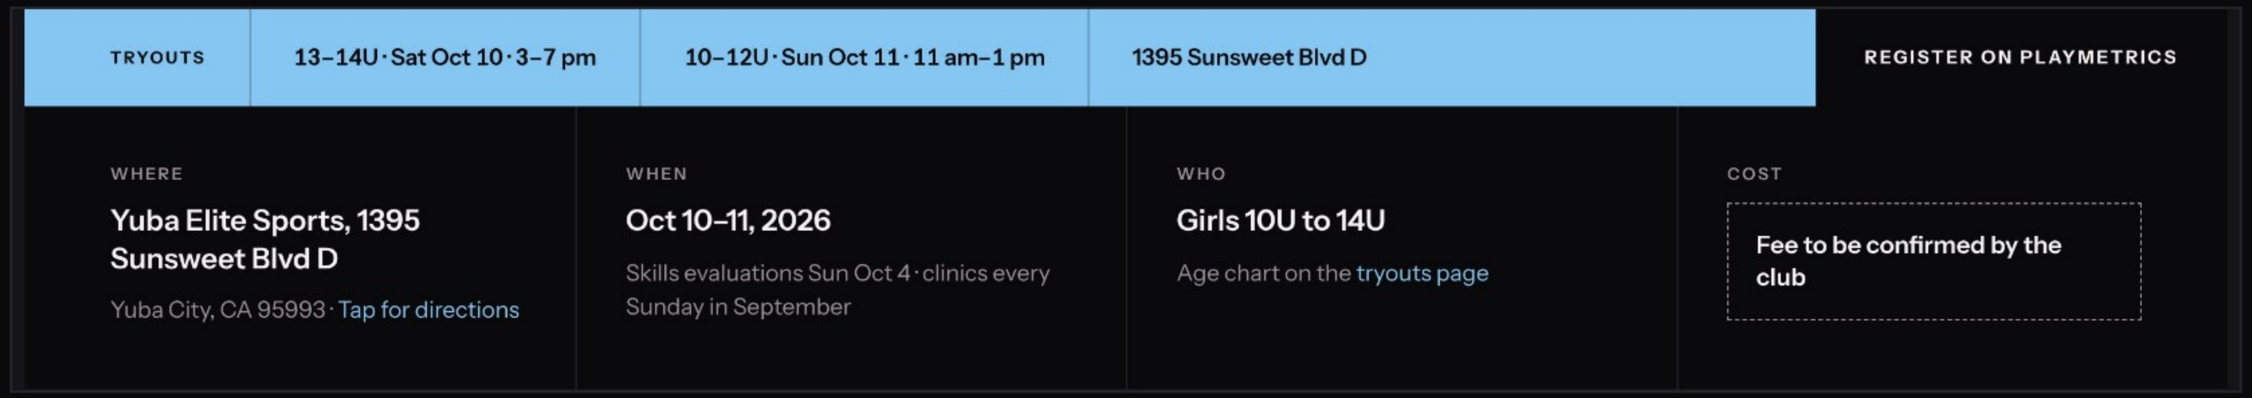

WHY IT'S BUILT THIS WAY

Today the headline is a picture, so Google and screen readers read nothing. Real text gets found in search and loads faster.

WHAT IT EARNS

The first tap goes to tryouts or the right program, not to an off-site event list where parents get lost.

EVERY PARENT'S FOUR QUESTIONS, ANSWERED UP FRONT

WHAT PARENTS SEE

A blue tryout ribbon with dates, times and the gym address, then Where, When, Who and Cost in four tiles.

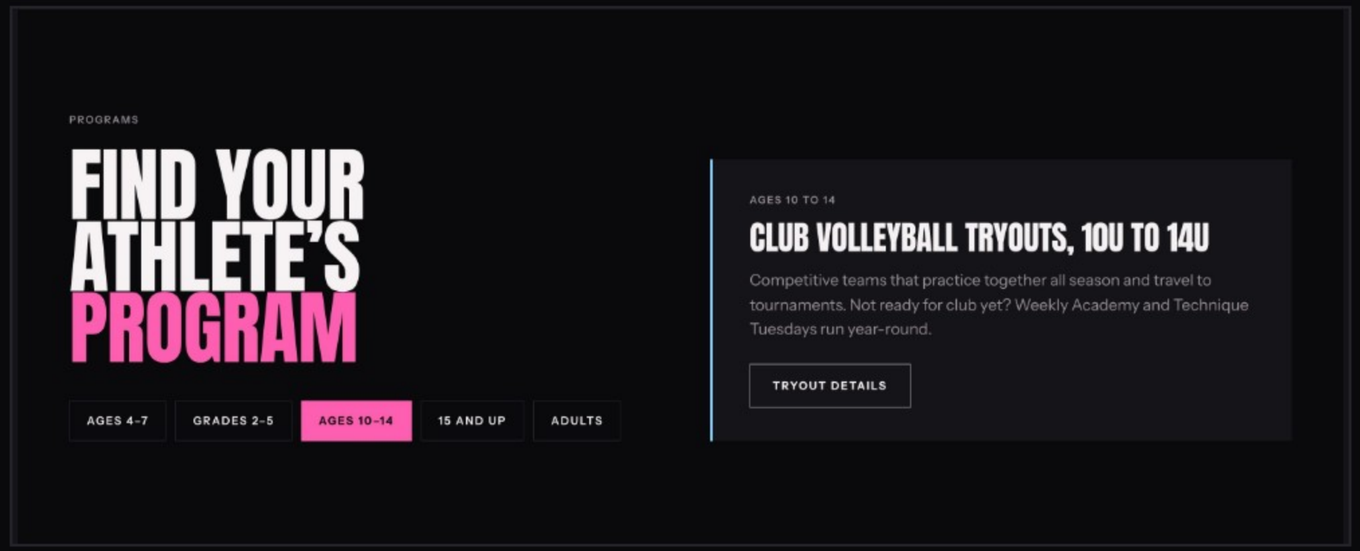

WHY IT'S BUILT THIS WAY

Today every date sits inside one flyer image and no fee is published, so the first answer costs the parent an email and costs you a reply.

WHAT IT EARNS

Fewer steps convert better. One business that cut its contact form from 11 fields to 4 saw conversions rise from 5.4% to 11.9% (Imagescape).

A PROGRAM FINDER THAT SELLS THE WHOLE CLUB

WHAT PARENTS SEE

Parents tap their athlete's age. The panel shows the programs that fit and one next step.

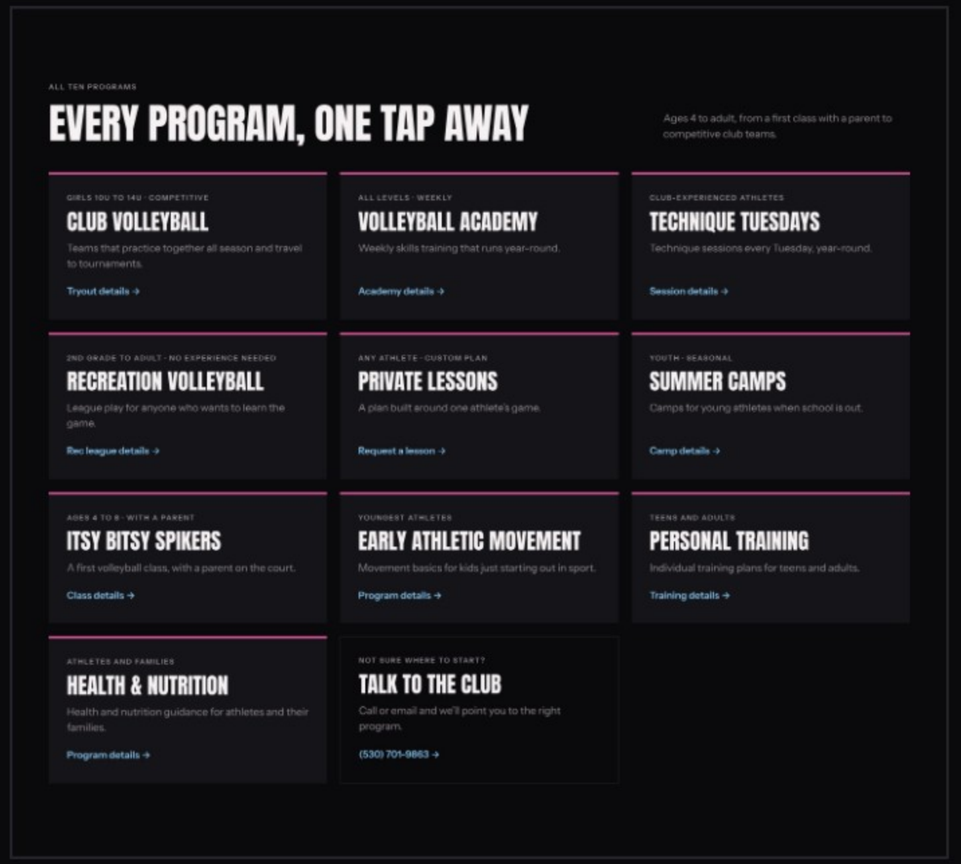

WHY IT'S BUILT THIS WAY

Today 9 of the club's 10 programs sit under a "More" menu. A parent who comes for tryouts may never learn about rec, camps or lessons.

WHAT IT EARNS

Every family that finds a second program is another registration from a family you already have, with no new advertising.

ALL TEN PROGRAMS, ONE TAP AWAY

WHAT PARENTS SEE

Ten cards from ages 4 to adult, each with who it's for and a direct link. A last card sends unsure parents straight to the club phone number.

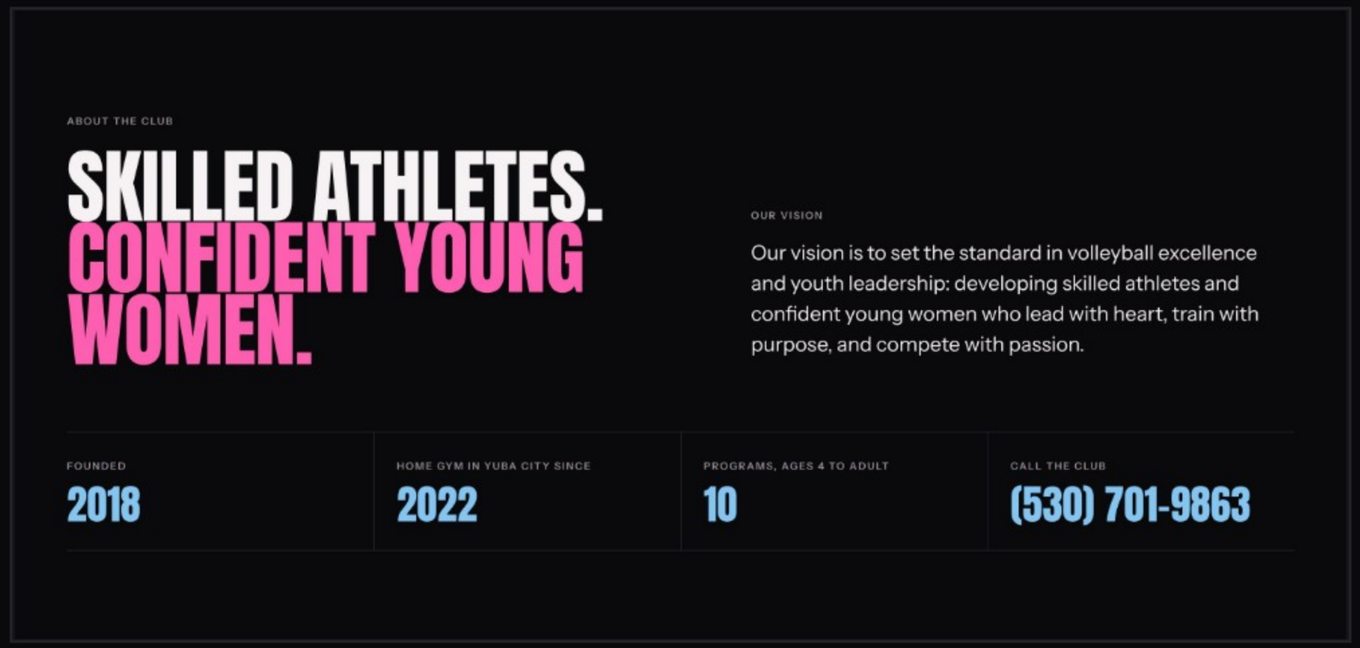

WHY IT'S BUILT THIS WAY

Each program gets its own page and search title, so searches like "volleyball camp Yuba City" or "adult rec volleyball" can land on Yuba Elite.

WHAT IT EARNS

Year-round programs fill the months between club seasons. Team registrations, camps and private instruction are what's pushing family sports spending up (Project Play).

TRUST BEFORE THE FIRST PHONE CALL

WHAT PARENTS SEE

Your vision statement in full, then a proof strip: founded 2018, home gym since 2022, 10 programs, and the club phone number.

WHY IT'S BUILT THIS WAY

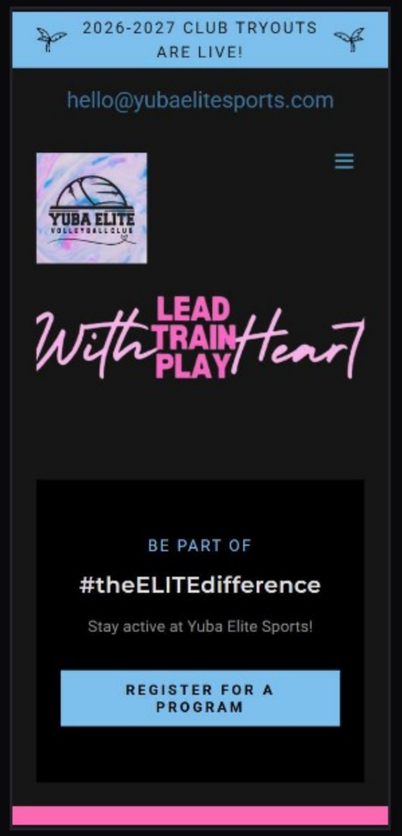

Families are watching costs: 68% of parents have seriously considered pulling a child from sports, with cost the top reason (Good Sports / Harris Poll, 2026).

WHAT IT EARNS

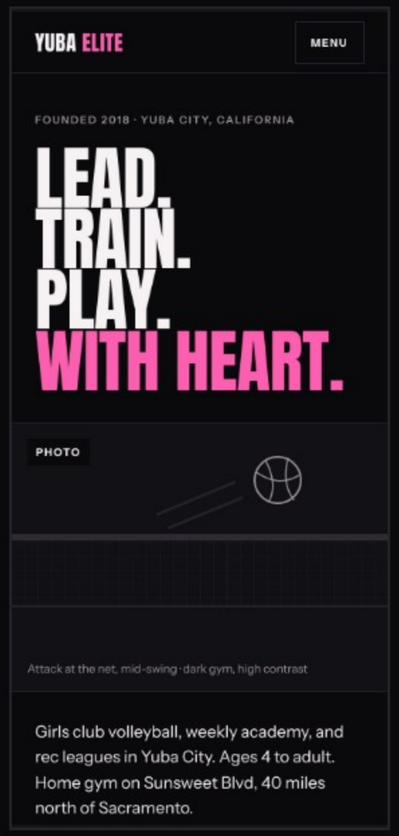

Showing what families get — coaching, development, a home gym — protects retention when parents weigh the price.

MOST PARENTS WILL SEE IT ON A PHONE

TODAY

REBUILD

WHAT PARENTS SEE

The same content, stacked: headline, photo, one paragraph and two full-width buttons, then the tryout ribbon and the four answer tiles.

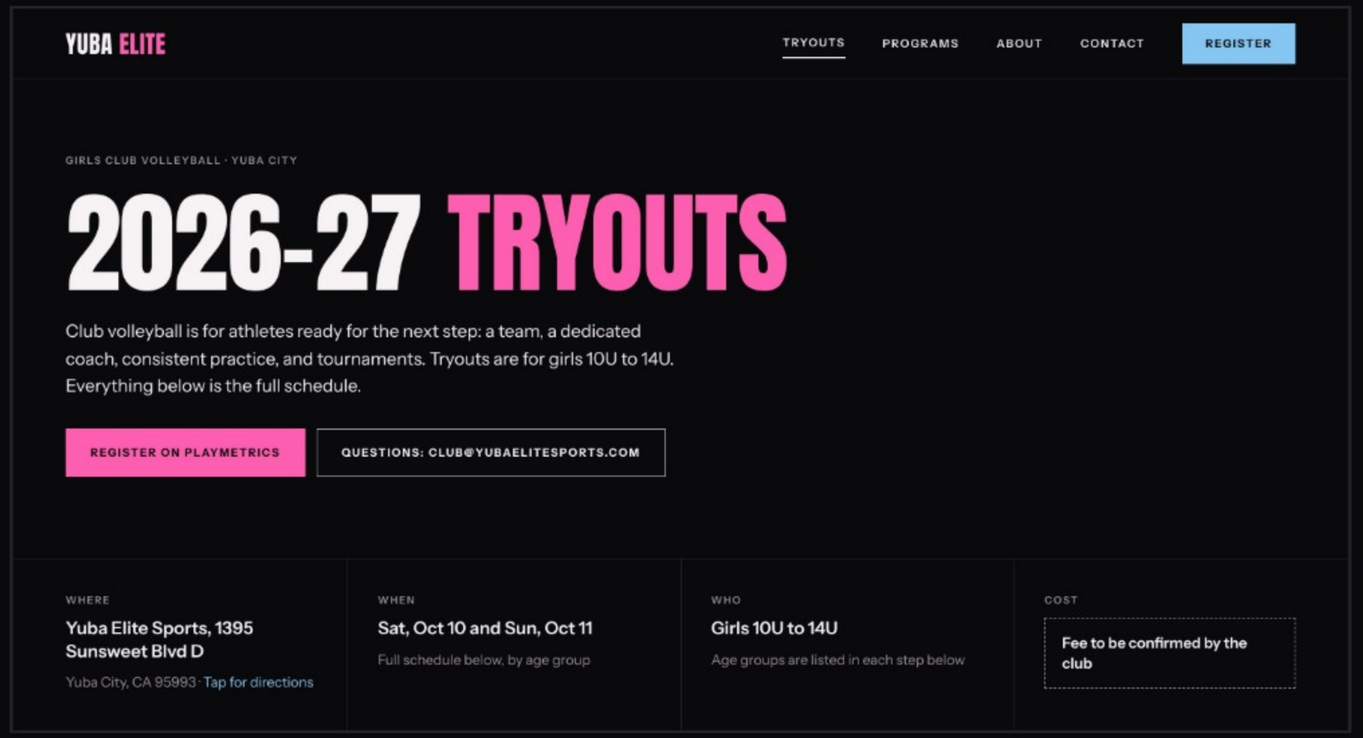

WHY IT'S BUILT THIS WAY

Today the first screen is an email address, a logo and a headline image, and the first button sits at the bottom edge.

WHAT IT EARNS

53% of mobile visits are abandoned after 3 seconds (Google). The rebuild is light, text-first code, and I'll measure load time before and after launch so you can see the difference.

A TRYOUTS PAGE INSTEAD OF A PASTED EMAIL

WHAT PARENTS SEE

Register and questions buttons first, then Where, When, Who and Cost, then the full schedule.

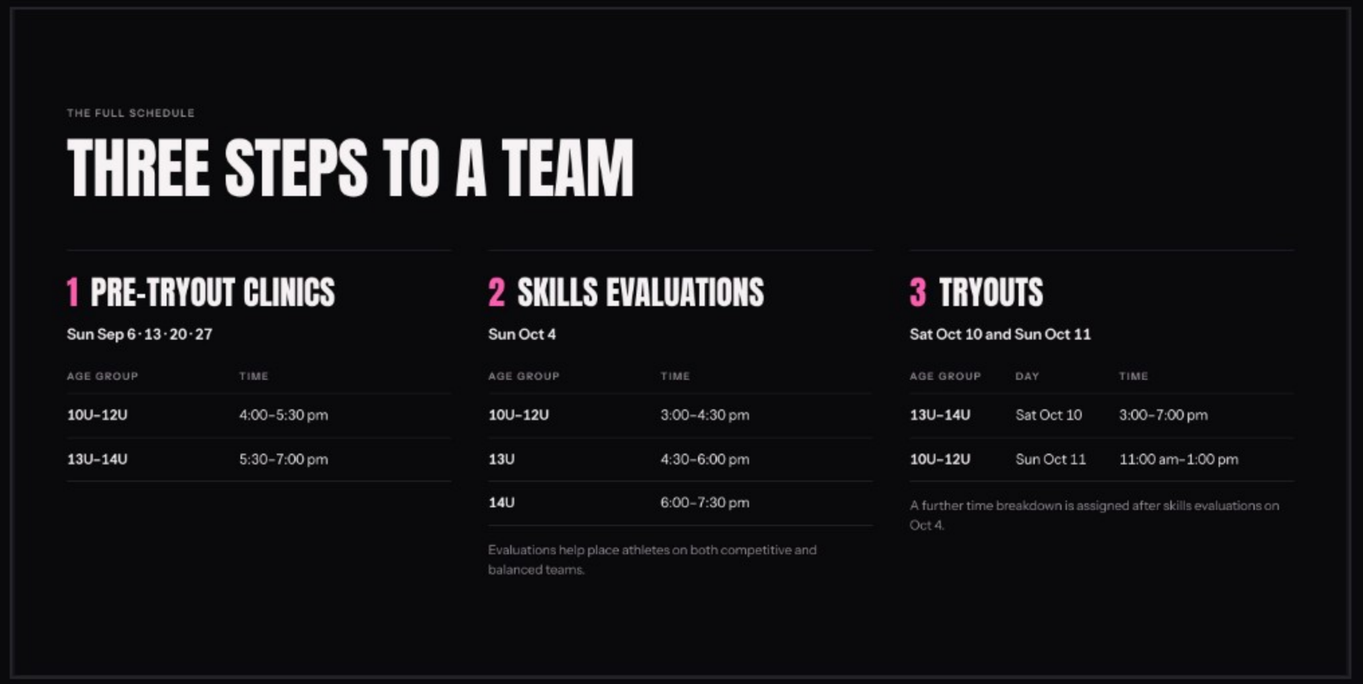

WHY IT'S BUILT THIS WAY

Today the tryout section is a pasted email, and every date lives in one image a parent can't tap, copy or add to a calendar.

WHAT IT EARNS

Dates written as text with event markup can show in Google's event results. Eventbrite saw about double its usual yearly search-traffic growth after adding it (Google).

THREE STEPS TO A TEAM, AS TABLES

THE FULL SCHEDULE

THREE STEPS TO A TEAM

1 PRE-TRYOUT CLINICS

Sun Sep 6 · 13 · 20 · 27

AGE GROUP	TIME
10U–12U	4:00–5:30 pm
13U–14U	5:30–7:00 pm

2 SKILLS EVALUATIONS

Sun Oct 4

AGE GROUP	TIME
10U–12U	3:00–4:30 pm
13U	4:30–6:00 pm
14U	6:00–7:30 pm

Evaluations help place athletes on both competitive and balanced teams.

3 TRYOUTS

Sat Oct 10 and Sun Oct 11

AGE GROUP	DAY	TIME
13U–14U	Sat Oct 10	3:00–7:00 pm
10U–12U	Sun Oct 11	11:00 am–1:00 pm

A further time breakdown is assigned after skills evaluations on Oct 4.

WHAT PARENTS SEE

Clinics, skills evaluations and tryouts, each with dates and times by age group, plus the notes parents ask about.

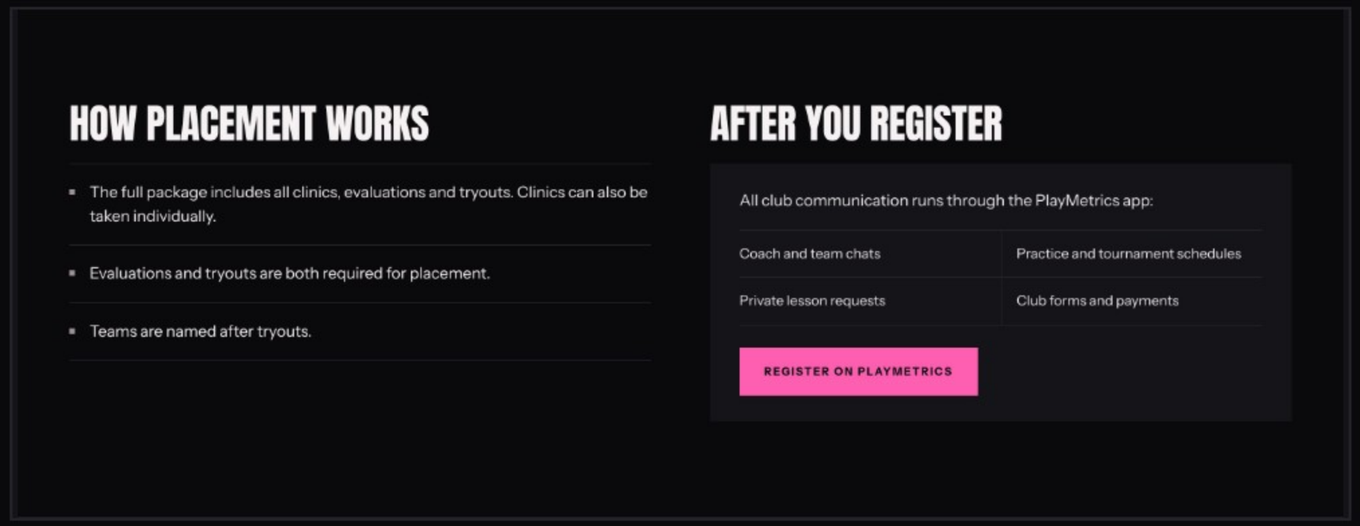

WHY IT'S BUILT THIS WAY

Parents check times on the go. A table reads in seconds, zooms on a phone and works with screen readers. A flyer does none of that.

WHAT IT EARNS

Showing the full path sells the whole package — clinics, evaluations and tryouts — not only tryout day. Clinics can also be booked on their own.

ONE REGISTRATION PATH, START TO FINISH

WHAT PARENTS SEE

How placement works, then everything that runs through PlayMetrics after sign-up: chats, schedules, lesson requests, forms and payments.

WHY IT'S BUILT THIS WAY

Today registration is split between Upperhand and PlayMetrics, and forms you can see on your end don't show up for parents.

WHAT IT EARNS

One Register button on every page, going to one place, means fewer abandoned sign-ups and fewer "how do I register?" messages.

WHERE THE MONEY IS

SIX WAYS THE SITE EARNS OR SAVES MONEY

LEVER	WHAT CHANGES ON THE SITE	WHAT WE MEASURE
Tryout registrations	Dates, times, address and one Register button on every page	Tryout sign-ups per season
Second programs	Program finder and a page for each of the ten programs	Families in two or more programs
Off-season revenue	Rec, Academy, camps and lessons each found in search	Registrations outside club season
Club store (new)	Club gear sold directly on the site	Store sales
Retention	Value, schedules and communication in one place	Families returning next season
Your time	Answers on the page instead of in your inbox	Inquiry emails per week

WHY A CUSTOM BUILD

THE CLUB HAS GROWN. THE SITE CAN CATCH UP.

The current site was a sensible place to start: quick to set up and easy to run. Since then Yuba Elite has grown into ten programs, a home gym and a year-round calendar. A template can only stretch so far, and that stretch is where money gets left on the table.

WHERE IT SLIPS TODAY

- Nine programs a menu away from the families who'd sign up
- Tryout dates and costs a parent has to ask for
- Two registration systems, and forms parents can't see
- No club store yet: a revenue line the club doesn't have

WHAT A CUSTOM SITE GIVES THE CLUB

Built around how the club runs
Ten programs, the tryout cycle and PlayMetrics, designed in from day one.

Light and fast on phones
Only the code the site needs, where most parents are browsing.

Found in search
Titles, descriptions, event dates and business details on every page.

Grows with the club
A store, team pages or a new program, added without starting over.

Someone who knows the club
Changes go to a club parent, not a support queue.

THE PROPOSAL

MY STANDARD RATE, AND A TRADE

ITEM	INCLUDES	STANDARD RATE
Custom build	All ten program pages, tryouts page, club store, PlayMetrics registration built in, search setup	$4,500
Care plan	Performance and security updates, seasonal updates and changes	$350 / month
First year	Build plus 12 months of care	**$8,700**

The proof of concept is already built, at no cost and no obligation.

WHAT I'M PROPOSING

I'll pay the $1,000 commitment deposit for Baylee, like every family.

In place of the remaining $2,500 in her 2026–27 fees, I build the full site and run the care plan through the season.

After the season, if you'd like me to keep maintaining and updating the site, we'll work out something that fits the club.

WHY NOW

TRYOUTS JUST ENDED. THAT MAKES THIS THE RIGHT TIME.

JUST HAPPENED	2026–27 tryouts ran October 10–11, and teams are named after tryouts. The busiest registration push of the year is behind you.
COMING UP	Rec, Academy, Technique Tuesdays, private lessons and summer camps all take registrations parents search for, and 2027–28 tryouts follow.
WHY LAUNCH NOW	New pages take time to be found and trusted by search engines. Building in the quiet stretch means the site is ready before families start looking.

NEXT STEP

WHAT I NEED FROM YOU

- The fee sheet: tryout fee, season dues by program, what they include
- Coach names, bios and photos
- 20–30 action photos from games or practice
- Which registration system stays: PlayMetrics or Upperhand
- Club store: what you want to sell
- Domain, PlayMetrics and Google Business Profile access at launch

IF YOU'RE IN

Say yes and send the fee sheet. I'll start the full build and share each page on the preview link before anything goes live.

Nothing changes on the current site until you approve it.
